**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1-76 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art fails to teach scalably encoding data AND progressively encrypting the scalably encoded data. All prior art references either scalably encode (transcoding) OR progressively encrypt the data. The benefit of doing both is that data can be secured in sections to allow transcoding to be performed without having to decrypt the entire data file.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Wagner (U.S. Reg. No. 35,398) on June 26, 2006.
